Then and Now.

The old-fashioned woman's idea of resting was to change her work. She sat down to darn stockings and rest, or she got her Bible lesson or nursed her baby or knit winter socks while she rested. Resting was getting off her feet. Today a woman has to buy herself 20 kimono and caps and go off to an expensive sanatorium and have a trained nurse give her the milk cure, to rest up.—El Paso (Tex.) Herald.
